

MASTERCLASS

# IELTS Speaking Prep

Equipping Candidates to Become Confident, High-Scoring Exam Takers  
through Structured Strategy

 Presenting Myself

 Goal: Create Great Exam Takers

 2-Min Self Intro

# Warm-Up: The Synonyms Chain

WARM-UP PHASE

## Synonyms for "Big"

Build descriptive capacity by avoiding overused, elementary adjectives.

Large

Great

Vast

Immense

Enormous

Huge

Gigantic

Colossal

Mammoth

Massive

## Synonyms for "Smart"

Express intellectual character and cognitive qualities with higher band words.

Clever

Bright

Intelligent

Astute

Shrewd

Insightful

Wise

Brilliant

Ingenious

Erudite

## Synonyms for "Happy"

Vary emotional expression to show depth and color in personal descriptions.

Pleased

Content

Satisfied

Delighted

Charmed

Cheerful

Beaming

Joyful

Grateful

# Warm-Up: One-Minute Drills

FLUENCY TRAINING

## The Challenge

To build uninterrupted speech habits and structural flexibility, you must continue speaking for one whole minute starting with one unexpected scenario.

-  **Rule 1:** Start immediately from the prompt.
-  **Rule 2:** Expand continuously—do not pause.
-  **Rule 3:** One sentence each person around the circle.

### Exercise Seed Scenarios

"My phone ran out of battery this morning..."

"The vending machine ate my last dollar..."

"I have a test tomorrow but I didn't study..."

"My computer froze right before I saved my work..."

# Common Speaking Obstacles

IDENTIFYING PAIN POINTS

## What Is Holding You Back?

Understanding major difficulties is the first step in formulating deliberate countermeasures.

- ⚠ **Nervousness:** Under stress, fluency drops and performance fumbles.
- ⚡ **No Preparation Time:** Generating answers instantly without dead silence.
- 📝 **Answer Extension:** Avoiding simple one-word or one-sentence traps.
- 📍 **Unfamiliar Themes:** Struggling with unexpected abstract topics.

# Speaking Exam Overview

THE EXAM BLUEPRINT

| Part   | Duration      | Core Focus & Theme                                    | Expected Candidate Task                                          |
|--------|---------------|-------------------------------------------------------|------------------------------------------------------------------|
| Part 1 | 4 - 5 Minutes | Personal Questions (Home, Studies, Hometown, Hobbies) | Give short, fluent, direct answers (2-3 sentences max).          |
| Part 2 | 3 - 4 Minutes | Cue Card Presentation (Personal Experience/Story)     | 1 min preparation followed by a 1-2 min uninterrupted long turn. |
| Part 3 | 4 - 5 Minutes | Abstract Discussions & Intellectual Speculation       | Analyze, explain, and justify complex issues related to Part 2.  |

# Part 1: Structure & Rubric

PART 1 MASTERY

## Exam Structure

Part 1 features conversational questions regarding everyday aspects of your life.

-  **Focus:** General life, likes, routine, preferences.
-  **Length:** Keep answers crisp (2-3 sentences).
-  **Avoid:** Giving lectures or writing scripts.

## Assessment Criteria

Understanding exactly how the examiner scores your simple responses.

-  **Fluency:** Clean flow; no unnatural mid-sentence pauses.
-  **Vocabulary:** Avoid simple terms; use synonym chains.
-  **Grammar:** Flawless Simple Past and Present tenses.

# Part 1: Three-Step Strategy

TACTICAL EXECUTION

## The 3-Step Formula

Avoid flat "Yes/No" structures. Force structural expansion with these consecutive steps:

**Direct Answer:** Respond plainly to the main query.

**Logical Reason:** Anchor it with a clear "Why".

**Personal Example:** Inject an illustration or experience.

**! Model Strategy:**

"Yes, I do. Reading helps me relax because it takes my mind off work. For example, I read an exciting novel last Sunday."

# Part 2: Structure & Rubric

PART 2 LONG TURN

## The Cue Card Challenge

You are presented with a cue card containing a prompt topic and 3-4 structural points.

-  **1 Minute Prep:** Jot down critical keywords only (never write sentences).
-  **1 to 2 Min Turn:** Speak completely independently.
-  **Focus:** Maintain continuous speech; stay strictly on topic.

## The "P-D-E" Method

Structural control for long-turn speech using a Point-Detail-Example framework:

-  **Point:** State the primary claim clearly.  
*"My high school math teacher was incredibly supportive."*
-  **Detail:** Add descriptors and background details.  
*"She held extra study sessions and never lost patience."*
-  **Example:** Give a clear micro-story.  
*"Once, she drafted 20 diagrams for a single problem."*

# Part 2: Key Timing Formula

## Dividing Your Two Minutes

Never run out of details. Use this professional timing breakdown to hit the 2-minute limit perfectly:

- ⌚ **First 20 Seconds:** Describe the baseline topic (Who, What, Where, When).
- 📖 **Middle 40 Seconds:** Tell a small concrete narrative (What happened in detail?).
- ⌚ **Final 20 Seconds:** Wrap up naturally (Explain why it was memorable).

# Part 3: Structure & PEEL

DISCUSSION MASTERY

## Abstract Focus

Moves away from personal life to analytical discussion topics.

- ✓ Duration: 4-5 minutes
- ✓ Themes: Society, trends, logic
- ✓ Target Length: 3-5 sentences

## Analytical Range

The examiner is testing your ability to formulate robust arguments.

- ✓ Show analytical speculation
- ✓ Use logical discourse markers
- ✓ Justify every opinion

## The PEEL Formula

Your blueprint to structure complex abstract arguments seamlessly:

- P - Point:** State primary argument
- E - Explain:** Elaborate logic & reasons
- E - Example:** Provide an illustration
- L - Link:** Connect back to core question

# Part 3: PEEL Method Model

## EXEMPLARS

### Topic: Celebrities as Role Models

**Point:** They aren't always positive models, though exceptions exist.

**Explain:** Celebrities are selected for fame or skill, not morality. Fans imitate lifestyles without considering if they are healthy.

**Example:** For instance, youth often adopt reckless behaviors defended solely by a favorite pop-star's endorsement.

**Link:** Thus, while inspiring, family and mentors remain safer long-term guides.

### Topic: Public Transport Funding

**Point:** Governments must urgently fund public transit networks.

**Explain:** Reliable systems decrease traffic gridlock, lower commuter stress, and cut harmful emissions.

**Example:** Cities like Tokyo or London allow millions to move efficiently without private vehicles.

**Link:** Ultimately, this investment shapes healthier, equitable urban futures.

CLASS DRILL SESSION

# Let's Practice Together

Join peers for direct peer-evaluations, cue card reviews, and interactive "Would You Rather" fluency builders. Focus strictly on structuring your ideas using PEEL & PDE.

 Exam Prep Frameworks
